

6/17/11

Dear Chris + Karen.

Well, after 80 days of treatment, it's time for the baby bird to leave the nest. Your kindness and generosity have saved my life, helped me to understand my addiction, and enabled me to see the true, beautiful, powerful, intelligent woman that was covered up by hurt, anger, self-centeredness, fear and drugs.

The quality of professional care given to me by Bobby and especially Beth Moffitt was beyond exceptional. I sure hope you know what you've got here with Beth. Wow! She has given me everything she had to give as a professional. She invested her time into me and cared so much as to always listen to me and counsel me, and in return she given her the "new me."

I can only repay you guys by staying clean and share with others what your center has given me - the life saving message of recovery.
